

Community instructions for MGSC promotional video filming

This video will be used as part of a montage in a video we are putting together for our website to promote the school. We are hoping to get as many past students in our community as possible to help promote our school. We want to show the vast destinations and careers our students have ended up in, along with the aspirations of our current students. You will be one of many people saying the same line.

We are asking that you film yourself (instructions below) and in your video state your name, year you finished school, what you are currently doing for work/lifestyle and then pause and say, "I'm a Mentone Girl". And remember to smile! :)

For example, "I am Kate Smith. Class of 1998. Firefighter... I'm a Mentone Girl."

We will only be sharing the part of the video where you say, "***I'm a Mentone Girl***" but we need a bit more information at the start of the video so we know how to identify you, your caption and year to put with your video.

Once you are done (before Mon 17th October if possible), could you please upload your video [> here <](#)

Filming instructions:

If you follow these simple steps, you'll look like a movie star!

- **YOU MUST FILM THE VIDEO IN LANDSCAPE** (with the phone on it's side)

- Ensure you're in the **centre** of the shot and **look into the camera** when speaking
- Try to keep the phone at **eye-level** (this will ensure you get the most flattering angle of yourself)
- Try to record in a **quiet** area with lots of **natural light**.

- Use the **rear camera** on your phone if possible
- **Once you hit the record button, take a deep breath, relax, smile and begin speaking**

Thank you for agreeing to be part of our promotional video!
