

EMPLOYMENT OPPORTUNITY FOR Coding & Robotics Tutor with Junior Engineers

Looking for paid tutoring work in STEM with an award-winning tech education company?

Junior Engineers offers Chisholm students and external jobseekers paid employment to teach children between the ages of 7 and 15 coding & robotics in STEM - an educational program in the fields of science, technology, engineering, and mathematics (STEM).

Junior Engineers delivers fun, hands-on and educational programs in coding & robotics to provide children with the fundamental 21st century skills to set them up for future success in a world where technology touches every aspect of their lives.

As an instructor with Junior Engineers, we will support your success with ongoing professional development.

Requirements:

- ✓ Direct tutoring experience is not necessary, rather we look for candidates with a passion for STEM and educating kids
- ✓ Proficiency in computer programming and/or robotics (Python, Small Basic, C++, Scratch and/or Arduino preferred)
