

Dear parents and carers,

As the new school year is underway, we'd like to remind families about the important role good vision plays in learning and development.

At Specsavers Shepparton, we're passionate about helping children see clearly and feel confident in the classroom. Many vision problems can go unnoticed, and children may not realise they're struggling with their sight. Regular eye tests can help identify any issues early and support your child's success at school.

Children's eye tests are available at Specsavers bulk billed through Medicare, and we also offer a children's discount as we want glasses accessible to all. Our friendly, experienced team is trained to make eye tests a comfortable and positive experience for young patients.

We have two convenient locations in Shepparton. Our Maude St store is located on the corner of Maude St & High St, with free parking available across the road (entry via High St or Rowe St). Our Marketplace store is found in the Shepparton Marketplace, right near the ride hand side entrance, opposite the Commonwealth Bank.

Making an appointment is made easy by booking on our website www.specsavers.com.au, or calling us on (03) 5821 0803 for Maude St or (03) 5831 4332 for Marketplace and following the prompts.

Thank you for taking the time to support your child's eye health. We look forward to welcoming local families in the new school year.

Kind regards,

The team at Specsavers Shepparton.
