GENERAL RULES

1. **Students are to be on best behaviour and keep the swimming carnival safe for all people involved. Pool rules are displayed at the venue and need to be adhered to.**
2. **All students are to participate. Participation in competitive races is voluntary; however, each student should participate in at least 1 team game, volunteer as a student helper, and generally contribute to their village.**
3. **When not competing, students are to stay in their village group.**
4. **On hearing continuous whistle blasts, students are to quickly and safely exit the pool and gather in their village groups.**

COOL DOWN SWIM

If the carnival is running to schedule there will be times to jump in the pool to cool down. These will be called out throughout the day for each village, so you will need to pay attention to the announcements.

RULES OF TEAM GAMES

Dribble relay
Each team lines up at the shallow end of the pool. The first swimmer starts in the water and pushes the ball across the pool until they reach the false start rope and then returns back to the start. They are not allowed to hold or throw the ball. It can be pushed with the arms or the head. The next swimmer can enter the water but cannot leave (ie must be touching the side of the pool) until the ball is pushed up against the **edge**. Each swimmer swims ONCE.

Running Relay
Each team lines up at the shallow end of the pool. The first runner starts in the pool and walks/runs until they reach the false start rope and then returns back to the start. THERE IS NO SWIMMING. One foot on the bottom of the pool at all times. Next runner waits **in the pool** but may not leave until the first swimmer has touched the wall. Each runner runs ONCE.

Over and Under
A team of 8 swimmers stand in line. They must stand on the black lines on the bottom of the pool. The ball starts at the start of the line where it is passed over the head and then backwards through the legs in succession. The person at the end of the line brings the ball to the front until all have been through. The very last person swims with the ball to the finish. Each person shall go through ONCE.
