

JACANA SCHOOL FOR AUTISM NEW PERMANENT MODULAR BUILDING

Our new building includes the following features:

- Cutting edge design
- Flexible learning spaces for 21st century learning
- Learning environments adaptable for every student group
- Fit-for-purpose build requiring minimal maintenance
- Low carbon footprint
- Respite areas
- External decking
- Interactive learning boards
- Student amenities, including accessible toilet and shower area

More information

If you have any questions about these exciting changes, please contact the principal, Corinne Pupillo, through the office or by phone on **(03) 9309 6258**.

If you would like up to date information on the project, please visit schoolbuildings.vic.gov.au and search for Jacana School for Autism.

Dear Community,

I am delighted to share the designs of our new permanent modular building with you.

Architecturally designed and constructed offsite, the building will be ready quicker with far less disruption than a traditional building.

We have worked closely with the design team to ensure our new buildings reflects Jacana School for Autism's vision and needs. The new learning centre will link formal learning, specialised learning spaces, and areas of respite with the layout being developed with careful consideration of how teachers use spaces. Wrap around external decking will provide a second exit and enables direct access to playgrounds from all classrooms.

It is safe to say we are looking forward to the official opening and occupancy in the year.

Please feel free to contact me with any questions as we work towards this exciting milestone.

Kind regards,

Corinne Pupillo

Principal, Jacana School for Autism
