

JobJump Careers News Subject Bulletin

20 May 2021

**IMPORTANT MESSAGE TO HEAD TEACHERS and ALL STAFF
and to Parents,**

It may only take one piece of news to lead a student towards success in their life's career.

If you know students enjoy your subject, this is a great way to assist them, so please encourage them to take part in those events mentioned below in your Subject Area. Find below a listing of special careers news that have also been emailed out to many of our students and their parents.

SPECIAL MESSAGE REGARDING EVENTS LISTED AND COVID-19

Events listed are presented as reported from the home website at the time of collection from the news source. We strongly advise you check directly with the event organisers regarding the delivery of the event due to current restrictions.

HSC SUBJECT KLA / FACULTIES

CAPA

Dance, Drama, Music, Visual Arts

Introduction to SketchUp

30 August 2021

Learn SketchUp online with our partner [Interior Design Online](#) [here](#).

Looking to extend your presentation skills? Create detailed 3D models using this intuitive and easy-to-learn program. Over 2 sessions you will be introduced to the fundamentals of SketchUp enabling you to create realistic floor plans and 3D models. You'll use the 3D Warehouse, the world's largest online library, to import furniture and lighting. Whilst this short course has been created for those working in the design or construction industry you'll need little or no experience in this software, and only basic computer skills. This course is not accredited, upon completion you will receive a Sydney Design School Statement of Completion.

<https://sydneydesignschool.com.au/sketchup/>

SAE Early Entry Launchpad

How will the SAE Launchpad program benefit me?

- Sit your final exams with the confidence of knowing you already have a place at SAE
- Have a seamless transition to SAE student life, with the full support of our academic and admissions teams helping you as you transition into tertiary study
- No ATAR required for entry into Bachelor or Diploma programs
- Access to Fee-Help approved programs

Applying is easy, you will complete a simple application form that indicates your school and the course you wish to study.

An SAE Course advisor will then be in touch to confirm your eligibility and chat to you about your course options.
<https://sae.edu.au/admissions/launchpad-early-entry-program/>

LANGUAGES

Learn a Language with WEP (World Education Program) Voce Viva

Voce Viva runs during the July and September school holidays.

This is an immersive language camp in Melbourne CBD. Students will get to develop their language skills, tour the city with Italian-speaking guide/s and meet other like-minded language learners. Students can now save money and sign up for a day only program variation (if they have suitable accommodation - friends/family in the area). Follow link to learn more:

<https://wep.org.au/voce-viva/>

MATHS and SCIENCE

Senior Science, Biology, Chemistry, Earth and Environmental Science, Physics

Open for students studying Chemistry for the HSC. \$45 for a team of 3 students.

If you have any questions please email raci-nsw@raci.org.au

Registrations close on Friday, 21 May 2021

[https://www.raci.org.au/Web/Store/StoreLayouts/NSW Titration 2021.aspx](https://www.raci.org.au/Web/Store/StoreLayouts/NSW_Titration_2021.aspx)

Ask Us Anything - Nuclear Medicine

22 June. 7pm

Nuclear medicines play an important role in supporting Australian Health helping to accurately diagnose and treat diseases. Some nuclear medicines, called theranostics are clever enough to do both!

Australia is amongst the best in the world in the research, development and manufacturing of nuclear medicines and is playing a significant part in the global fight against cancer. Find out more in this 90-minute free online event will include some short presentations and panel discussions with a range of scientific and medical experts sharing the latest developments. Suitable for members of the general public

<https://www.eventbrite.com.au/e/ask-us-anything-nuclear-medicine-tickets-153908018025>

University of Sydney - Pathways to Medicine and Health

9 June. 4pm

Healthcare is one of the fastest-growing industries around the world and people are drawn to the opportunity to make a difference in other's lives as well as the flexibility to enjoy diverse careers domestically and internationally. The University of Sydney offers the widest range of medicine and health programs in Australia. This webinar will advise on the options available to students who don't get into their first choice.

UNSW Sydney Rural Clinical School Medicine Information Evening

24 May. 6pm to 7pm

Are you interested in a career in medicine, immersing yourself in the diverse and hands-on learning opportunities at our Rural Clinical School campuses?

Prepare for the future of health and join a community focused on improving life for all. Studying the Bachelor of Medical Studies/Doctor of Medicine at UNSW will provide you with the theoretical understanding and practical experiences you need to launch your career as a medical professional.

With five rural campuses across NSW, the Rural Clinical School Medicine Information Evening will provide insight into the dynamic blend of clinical experiences and research-focused learning that you will be immersed in as a UNSW Medicine student. You'll also find out detailed information on the application and admissions process for 2022, including how to apply for the Rural Entry Scheme, as well as the range of student life opportunities available across our vibrant rural campuses.

Join us online where you will hear from our expert panel of academic staff and current students, and get all of your UNSW Medicine questions answered.

<https://www.events.unsw.edu.au/event/unsw-sydney-rural-clinical-school-medicine-information-evening>

UNSW Co-op Applications

Closes 30 September 2021

The first step is to [Register Online](#) to start your application. The earlier you do this, the longer you'll have to work on your application.

Make sure you review the application questions and start drafting your responses.

Remember the Co-op Program is looking for what makes you stand out from the crowd. Include enough detail in your answers to showcase who you are, what experience you have and why we should choose you. A list of achievements is a good start, but an explanation about how these achievements have helped you grow as an individual is much better!

[Log on](#) and update your application as many times as you like, just make sure you click SUBMIT before the 30th September!

<https://www.coop.unsw.edu.au/apply>

What different Scientists Do at the Australian Museum - Meet our scientists

Our AMRI scientists are working in a range of different ways and on a variety of projects during this period of isolation. Meet our scientists and hear about how they are adapting and forging ahead in scientific discovery from around the country.

Professor Tim Flannery - The Climate Cure: The inaugural Talbot Oration

Australia's leading climate expert, Professor Tim Flannery, presents real solutions to tackle climate change.

Thursday 3 June. 6:30pm - 8pm

In this free talk, award-winning climate scientist Professor Tim Flannery outlines practical solutions to address climate change in the Australian Museum's inaugural Talbot Oration.

Our country is at the coalface of climate change. How do we safeguard our nation and our planet with limited budgets, growing costs and accelerating climate change impacts?

It's time for Australia to lead the way in global behaviour change. The survival of our civilisation depends on a collective commitment to protecting biodiversity and taking climate action.

<https://australian.museum/event/climate-cure-talbot-oration/>

Australian Museum - Unsettled

Starts 22 May

This land was not peacefully settled – *Unsettled* uncovers the untold histories behind this nation's foundation story. In this exhibition, First Nations voices reveal the hidden stories of devastation, survival and the fight for recognition. These first-hand accounts are presented through long hidden historical documents, large-scale artworks, immersive experiences and never-before-seen objects from the Australian Museum collections and beyond.

[Click here for more information.](#)

Nights at the Museum

5pm – 9pm every Thursday

Our doors are open late on Thursday nights for visitors to delve into the AM's newly renovated and reopened spaces. Shake your bones to an awesome line-up of DJs and relax at the pop-up bar. Explore our permanent galleries and exhibitions, plus [Prehistoric Playground](#) will be open for budding palaeontologists.

Tickets are not required for Nights at the Museum, however guests are required by the NSW Government to register their details on arrival for COVID-19 contact-tracing purposes.

<https://australian.museum/event/Nights-at-the-Museum/>

New technologies taking over the modern tradie's toolbox

Tech that combines real world with computer generated images – like Microsoft's wearable [HoloLens](#) – are starting to be employed by **building designers**, **architects** and **painters** to allow clients to interact in a realistic way with a space before making concrete design-based decisions. They're serious game-changers at IKEA, where customers can place products true-to-size in a space by downloading their [app](#). In construction jobs, the same tech is creeping in to test structural changes onsite before they're implemented.

https://careerswithstem.com.au/the-new-tech-taking-over-the-modern-tradies-toolbox/?utm_source=Refraction+Media&utm_campaign=0f12a21110-

[EMAIL_CAMPAIGN_2018_04_04_COPY_01&utm_medium=email&utm_term=0_20dc88b9ea-0f12a21110-148898187&mc_cid=0f12a21110&mc_eid=5a58dfdde9](https://careerswithstem.com.au/the-new-tech-taking-over-the-modern-tradies-toolbox/?utm_source=Refraction+Media&utm_campaign=0f12a21110-EMAIL_CAMPAIGN_2018_04_04_COPY_01&utm_medium=email&utm_term=0_20dc88b9ea-0f12a21110-148898187&mc_cid=0f12a21110&mc_eid=5a58dfdde9)

Careers with Maths and Data STEM

The latest edition of Careers with STEM is all about careers that count. Discover how people who use maths and data are helping us through the COVID-19 pandemic, to understanding and predicting extreme weather and bushfires.

Meet a real-life health data scientist, a YouTube trend expert, an extreme weather meteorologist, bushfire analyst - even a plumber who uses maths every day and reckons you should stick with it.

https://issuu.com/refractionmedia/docs/cwstem_maths_data_2020

UNSW Bragg Prize - The STEM in everyday life

Closes 27 August

Science, technology, engineering and maths is part of everything around us, from our response to the pandemic, to the tech we use for play. Mobile phones, traffic lights and TikTok, your food, health, the climate, the built environment and the natural world around you - STEM has had a part to play in understanding, refining and creating so much of the world we take for granted everyday.

In 800 words, explain the STEM behind something that's part of your everyday life and important to you, your family, your culture, or your region. If we didn't have scientists, engineers and technologists, we wouldn't have vaccines, productive crops, or algorithms that recognise your face on your phone. Discover and describe the science behind something that is directly relevant to your everyday life including why it's important for society and to you personally.

Your 800 words essay could consist of:

- Discuss the origins of natural phenomenon you've experienced
- Analyse the science or engineering behind something you use everyday
- Critically evaluate the history of a scientific or technological development

References do not count towards the word count.

Don't forget to look at the competition page some tips and tricks before submitting.

UCAT Summary and Preparation

The University Clinical Aptitude Test (UCAT ANZ) is an admissions test used by the UCAT ANZ Consortium of universities in Australia and New Zealand for their medical, dental and clinical science degree programmes.

The UCAT ANZ helps universities to select applicants with the most appropriate abilities and professional behaviours required for new doctors and dentists to be successful in their clinical careers. It is used in collaboration with other admissions processes such as interviews and academic qualifications.

It is also your opportunity to stand out from other applicants and demonstrate your aptitude for a demanding programme of study.

The UCAT ANZ is a computer-based test delivered in Pearson VUE test centres throughout Australia, New Zealand and at some overseas locations.

Please note that some pathways to medicine / dentistry / clinical sciences will not require the UCAT ANZ. For some applicants a different test may be required. For details candidates should refer to the websites of the universities to which they intend to apply.

<https://www.ucat.edu.au/ucat-anz/>

UCAT Practice Tests and Resources

We advise you to prepare for the UCAT using the free official practice materials which have been developed by the UCAT Consortium. We believe that all everyone should have access to free preparation materials to support their test preparation. The resources and advice below have been produced by ourselves using feedback from previous high-scoring candidates.

<https://www.ucat.edu.au/ucat-anz/practice-tests/>

UCAT Test Day

You must arrive *at least 30 minutes before your appointment time to complete the check-in process.*

If you arrive more than 15 minutes *after* your appointment time you will not be allowed to take the test and will have to book and pay for a new test appointment on another day, (subject to availability of test appointments). This applies in cases of family emergency, accident, transport problems and security alert as well as forgetfulness and lateness.

<https://www.ucat.edu.au/ucat-anz/test-day/>

UCAT Test Format

The UCAT is a two-hour computer-based test which assesses a range of abilities identified by universities as important to practicing in the fields of medicine / dentistry / clinical sciences. The test consists of five separately timed subtests which each contain a number of questions in a multiple-choice format. Once started the test cannot be paused for a break but before each subtest there is a timed instruction section.

Candidates either sit the standard test or apply for an extended version of the test if they are entitled to extra time due to a documented medical condition or disability.

<https://www.ucat.edu.au/ucat-anz/test-format/>

Study Medicine Deadline Dates for Undergraduates

Summary information about significant medicine application deadlines for June 2020 is given for 59 university degrees leading to medicine in Australia. You can find Study Medicine on Twitter, Facebook or email:

admin@studymedicine.com.au

<https://www.studymedicine.com.au/deadline-info>

UOW College - Nursing - Online Info Session

Tuesday, 22 June 2021. 5:30 PM - 6:30 PM

Want to be a Nurse?

Thinking about studying the Diploma of Nursing at UOW College or already have an offer and still need answers?

Don't worry we've got you covered. Please join us for our upcoming online info session to find out how to become

an enrolled nurse or progress onto the Bachelor of Nursing at UOW in just 18 months. We will provide an overview of course structure, entry requirements, job outcomes, scholarships available, VET student loans and more. Staff will be available on the night to answer any questions you may have. Applications are open now! Classes start in July 2021.

Once you register, we will send you an email with further information on how to join us on the night.

We look forward to chatting to you.

Australian Fossil and Mineral Museum

224 Howick Street, Bathurst

Where art and science meet. Baffle your senses with an evening of tactile and visual illusions. Watch static images move and twist before your very own eyes. Feel your body change size and shape. Immerse yourself in the bizarre sensory world of animals in which perception determines your fate.

<https://museumbathurst.com.au/australian-fossil-and-mineral-museum/>

National Marine Science Centre

Located on the edge of the spectacular Solitary Islands Marine Park in sub-tropical Coffs Harbour, the National Marine Science Centre is one of the world's best situated facilities for studying coastal and marine habitats and their inhabitants.

Scientists at the NMSC excel in research in key global issues such as food security and the impacts of humans at local, regional, national and international levels.

Expertise in disciplines including marine biodiversity and ecology, aquaculture, estuarine and coastal processes, and coastal management provide a diverse base for teaching and research projects on conservation and sustainability of marine environments that are affected by increasing urbanisation and climate change

<https://www.scu.edu.au/national-marine-science-centre/>

National Marine Science Centre Volunteering

On occasion, we may offer opportunities to the general public, to work with our trained professionals.

To register as a volunteer of the University, please complete the SCU Volunteer Registration Form and email to: nmsc@scu.edu.au with a covering letter outlining your specific area of interest. We endeavour to respond to all received applications. Volunteers are governed by our Volunteer Policy and Code of Conduct and will undertake any relevant inductions, on commencement. As a volunteer, it is important you understand that you are not covered by the University's workers' compensation insurance.

Further information T: +61 2 6659 8100 E: nmsc@scu.edu.au
