

PORT MELBOURNE TEAMKIDS NEWSLETTER

WHAT'S BEEN HAPPENING

Dear TeamKids Families,

The past two weeks at TeamKids Port Melbourne Primary have been filled with creativity, teamwork, and excitement.

Our Cooking Club has been a big hit, with children making fluffy pancakes from scratch and enjoying delicious s'mores the following week. These sessions encouraged teamwork, independence, and confidence in the kitchen while learning about measuring, mixing, and safe food handling.

At the craft station, children have been busy creating amazing projects using recycled and sustainable materials, supporting our Term 4 focus on sustainability. Some of the highlights included rocket ships, paper plate animals, bird feeders, and mini ferris wheels made from popsicle sticks. These activities encouraged problem-solving, imagination, and environmental awareness.

Our new speaker and microphone have also been a huge success, turning group times into fun karaoke and dance sessions. Children have loved singing their favourite K-pop and Demon Hunter songs, dancing with friends, and even getting parents involved during pick-up time. These activities have helped build confidence, social skills, and team spirit.

As we continue through the term, we'll keep promoting sustainability through creative STEM projects, summer-themed cooking, and outdoor games that bring our community together. It's been a joy seeing every child so engaged, expressive, and proud of their learning.
