

## **Baimbridge College Permission to Use Student Photographs/Artwork/Multimedia**

From time to time Baimbridge College releases photographs to the media to promote curricular and co-curricular activities at school and within the community. There are also times when media outlets use images from sporting and other co-curricular activities for use within their publicly visible platforms in print and digital form. These will be monitored and if not viewed as appropriate they will be contacted for removal.

These images may also be used in student newsletters, periodicals, annuals, the Baimbridge College website, social media platforms (Facebook, Instagram, Twitter) and marketing materials produced by or for Baimbridge College.

In addition, occasionally your child may be included in videos produced by their teachers or staff to celebrate curriculum at Baimbridge College. These videos are often posted to YouTube on the Baimbridge College website. Students are rarely identified by name in these instances.

We seek your permission to include your child's photograph/quotes or interviews and/or artwork in these mediums. This permission will continue to be valid for the time your child is at Baimbridge College, unless you specifically withdraw it.

If you do not give consent for Baimbridge College to publish your child's image in any or limited capacity please provide details in a separate note outlining the boundaries of consent, ie publish photo for Compass but not to any public forum.

I, \_\_\_\_\_, Parent/Guardian of the child/children listed below authorise Baimbridge College to release images of my child/children, or images of their artwork, video quotes, interviews and projects to the media.

I further authorise Baimbridge College to use these images to promote curricular, co-curricular and student life activities at school and within the community.
