

Urgent Care Clinic

Latrobe

The Latrobe Urgent Care Clinic (UCC) in Moe provides GP-led care for non-life-threatening conditions, without the need for you to visit an emergency department.

If you are experiencing any of the following illnesses or injuries, visit the Latrobe UCC instead of emergency:

- mild to moderate infections
- fever
- pain when urinating
- suspected minor fractures and sprains
- back and muscle pain
- minor cuts, burns, and insect or animal bites
- heartburn, vomiting, nausea
- headaches, migraines and brief fainting
- constipation, diarrhoea, abdominal pain
- allergies and rashes
- light bleeding in the first trimester of pregnancy
- mild to moderate asthma attacks, coughs and other respiratory symptoms.

The Latrobe UCC accepts walk-ups, referrals and pre-booked appointments, and runs as a triage service, meaning people with the most urgent medical needs are seen first.

This service ensures vital emergency department resources are freed up for patients with more critical needs.
