SPEAKERS

DALE STEPHENSON

STEPHEN CAMPBELL

NEIL ANGUS MP

The first half of our evening will comprise the three speakers detailed above. After a coffee break we will move to the second half where a range of guest speakers will discuss the present and future consequences of ignoring traditional family values.

Focusing on issues alone creates a space where dangerous ideas can become policies and laws.

Against a backdrop of conflicting world views our children's future is increasingly being shaped by those seeking to dismantle the traditional family values that underpin:

**Freedom, Justice, Human Rights and Prosperity.**

Make your vote about **values**.

**Your children, Your choice, *Your vote.***

**Make an informed decision?**

Please consider the impact on our **children and future generations** if we fail to respond to:

**Truth or *Political correctness***  
**Freedom or *Socialism***  
**Parents rights or *Radical sex education (Safe Schools)***  
**Families or *Social engineering***  
**Freedom of belief or *Government policy***

Organised by Safeguard the Future & Crossway Political Engagement Community.
