

Seasonal Shapes

Attributes of 2D & 3D Shapes

Card #1

List three different quadrilaterals.

Teach Starter

Card #15

How many faces does this shape have?

Teach Starter

Card #9

Draw a shape that has two sets of parallel lines, four right angles, and all sides are equal.

Teach Starter

Directions:

1. Read the question carefully and solve the problem.
2. Record your answer on the recording sheet.
3. Check your answers using the answer key.

Card #1

List three different quadrilaterals.

Teach Starter

Card #2

List three shapes that have more than four sides.

Teach Starter

Card #3

List three shapes that have four sides.

Teach Starter

Card #4

Explain the difference between a square and a rectangle.

Teach Starter

Card #5

How are a rhombus and a parallelogram similar?

Teach Starter

Card #6

Name two shapes that have at least two right angles.

Teach Starter

Card #7

Name two shapes that have a pair of perpendicular sides.

Teach Starter

Card #8

Name two shapes that have at least one set of parallel sides.

Teach Starter

Card #9

Draw a shape that has two sets of parallel sides, four right angles, and all sides are equal.

Teach Starter

Card #10

Draw a shape that has four sides and no right angles.

Teach Starter

Card #11

Draw a shape that has three equal sides and three acute angles.

Teach Starter

Card #12

Draw a shape that has 6 equal sides and angles.

Teach Starter

Card #13

What three-dimensional shape has six identical faces?

Teach Starter

Card #14

What three-dimensional shape is formed from two circles and a rectangle?

Teach Starter

Card #15

How many faces does this shape have?

Teach Starter

Card #16

How many edges does this shape have?

Teach Starter

Card #17

What is this shape called?

Teach Starter

Card #18

What is this shape called?

Teach Starter

Card #19

What is this shape called?

Teach Starter

Card #20

What is this shape called?

Teach Starter

Card #21

What is this shape called?

Teach Starter

Card #22

What is this shape called?

Teach Starter

Card #23

What is this shape called?

Teach Starter

Card #24

What is this shape called?

Teach Starter

Name: _____

Date: _____

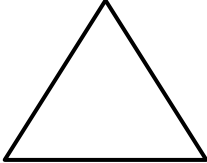

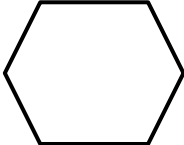

Seasonal Shapes

ANSWER KEY

1) Parallelogram, rhombus, square, kite, rectangle	7) Answers may vary.	13) Cube	19) Triangular prism
2) Pentagon, hexagon, octagon	8) Trapezoid, parallelogram	14) Cylinder	20) Sphere
3) Answers may vary.	9) 	15) 6	21) Rectangle
4) A square has all four sides that are equal, a rectangle has two pairs that are equal.	10) 	16) 8	22) Trapezoid
5) They both have two sets of opposite equal sides, and they both have sets of parallel sides. They both have four sides.	11) 	17) Cube or rectangular prism	23) Parallelogram
6) Square and rectangle	12) 	18) Cylinder	24) Octagon
