ABOUT THE PROGRAM

The NYSF Year 12 Program has run for over 38 years and is one of the best-known science, technology, engineering and maths (STEM) experiences in Australia for young people. It has helped over 13,000 + alumni realise life-long STEM literacy.

This youth-led, program gives students a broad understanding of the diverse study and career options available in STEM. Students visit world-class facilities, participate in hands-on workshops and meet Australia's leaders in STEM.

"NYSF is an amazing opportunity to hear from a wide array of professionals, to get university, career and general life advice and to meet lots of friendly Year 12 students. It is a chance to think about the future of STEM and how a new generation of scientists can make an impact on the world for the better."

- 2021 NYSF Participant

Students currently studying in Year 11 are eligible to apply via www.nysf.edu.au
