Literacy & Numeracy Update

During our Decoding sessions, students have been introduced to the /th/ phoneme. We have learnt that this can be unvoiced such as in the word thumb, or voiced such as the word feather. We are experimenting with this sound in our reading and our writing.

In Numeracy, we have been focusing on addition strategies. We have been identifying the largest number in our equation and counting on to find the total. We can't wait to begin to look at numbers higher than 20 this week!

Skill in Focus Letter Formation

Students have been introduced to our “ground, grass, sky” books. These books aim to help students accurately form their letters. Correctly formed letters assist people to be able to read our writing whilst also helping with our writing stamina because our hands do not have to work as hard! This week we are looking at our “Magic C” letters: c, a, o, g, q and d. All of these are formed by first writing the letter c.

Student Led Conferences

Students are busy preparing their work to show you at their Student Led Conference this Friday. We can't wait to play some maths games with you and share some of our fantastic writing!
