

Workplace Training

For professionals and services working with fathers and families

Join a **FREE** workplace training session and learn new ways to engage dads and families in positive and effective ways.

During an interactive workshop, you'll gain knowledge, practical advice and strategies on elements of a new Professionals' Toolkit developed as part of the Support for Fathers project, including how to:

- think about dads
- promote to dads
- engage with dads
- work with dads
- motivate dads
- grow a professionals' network
- learn more about working with dads.

This training is being delivered as part of the Support for Fathers project's national roadshow, which includes community information sessions and professional training on our new resources.

For more information on Support for Fathers or to access free resources for professionals and fathers, visit our new website at www.supportforfathers.com.au
