

Amazing Antarctic – 3C, 2025

In Antarctica, strips of dazzling stars swirling across the dark sky above the shining night sky. (Mia)

In Antarctica, giant colourful mists swirling around the beautiful land across the starry night above the snowy landscape. (Sofia)

In Antarctica, dazzling swirls of colours intertwine and mix across the breathtaking atmosphere under the beautiful Milky Way. (Evie)

In Antarctica, strips of dazzling shadows swirl and loop across the galactic highway across the stars that light the way. (Ashnee)

In Antarctica, a massive glowing galaxy of light dances and flies through Antarctica under the gloomy sky. (Kai)

In Antarctica, shards of light stretch indefinitely twisting and turning across the lines of colour beyond the Milky Way. (Alessia)

In Antarctica, rainbow strips of burning flames wave and dazzle beyond the burning night sky in the beautiful galaxy. (Joel)

In Antarctica, dazzling river patterns of light move calmly through the town across the houses of sleepy people under the amazing galaxy. (Owen)

In Antarctica, small strips of rainbow lights silently and sparkling shoot across the dark and misty sky above the hard working people. (Reilly)

In Antarctica, shiny stars forming a colourful sky weaves and curves across the ocean under the Southern Cross. (Xavier)

In Antarctica, huge galaxies filled with stars and planets spin around in jumbo loops through the dark and gloomy space above the deep dark ocean. (Angus)

In Antarctica, giant dancing strips of neon brightness wiggles and dazzles above the Milky Way over the silent waves. (Robel)

In Antarctica, huge coloured strips of colour twist and sway through the Antarctic circle above the tiny town. (Quinn)

In Antarctica, the looming aging moon smiles tenderly as it disappears above the village. (Alice)

In Antarctica, shards of dazzling colours spiral and loop gracefully through the star speckled galaxy above the frozen lake. (Zoe)

In Antarctica, huge rainbows of galactic light mix and dance like fire to the edge of the Earth above the night town. (Mai)

In Antarctica, gigantic colours of beautiful colours swirl and twist across the stars in the sky above the horizon. (Kaya)
