Works notification

Upcoming works and disruptions in August and September

We've removed the level crossing at Mt Derrimut Road by elevating the rail line to reduce congestion, and we've opened the new Station, creating a safer, better-connected Deer Park.

In August and September, there will be changes to the way you travel while works at Deer Park Station and on nearby roads continue to:

- build the new Deer Park Station, pedestrian forecourts, southern station car park and bus interchange
- landscape works in and around the new station precinct
- complete roadworks on Station, Mt Derrimut and Tilburn roads

Upcoming night works

We'll work overnight on Station, Tilburn and Mt Derrimut roads:

- Monday 21 to Friday 25 August

We'll work overnight in the rail corridor and at the new station:

- Wednesday 30 August
- Each night Saturday 2 to Monday 4 September; Saturday 9 to Wednesday 13 September; Sunday 17 to Tuesday 19 September; Wednesday 27 September

There may be other times in August and September where we will need to work at night to complete critical works. Impacted residents will be notified in advance. We'll make every effort to complete works on schedule, however dates are weather dependent and subject to change.

What to expect

You may notice truck movements, noise, dust and vibration during these works. When we work at night, additional lighting will be in place and will be directed away from residential properties where possible.

Changes to the way you travel

Pedestrian detours, lane closures and parking changes will be in place at times on Mt Derrimut Road, Station Road, Tilburn Road, Railway Parade/South and Eagle Way. For your safety, please follow the signage and traffic management in place. Please see the works map on the final page for more information about the following travel changes.
