

Deakin is committed to attracting top female students to non-traditional areas of study and work

The IGNITED Scholarship has been created to ignite women's interest in industry areas traditionally dominated by men. Each scholarship is valued at \$5000 per year over the normal duration of the course and recipients are also assigned an academic mentor.

Scholarships are awarded to successful applicants entering an approved undergraduate course offered by the Faculty of Science, Engineering and Built Environment. If you are a female student interested in applying for any of the following courses, we encourage you to also apply for this scholarship.

- Bachelor of Computer Science
- Bachelor of Construction Management (Honours)
- Bachelor of Cyber Security
- Bachelor of Information Technology
- Bachelor of Software Engineering (Honours)
- Bachelor of Civil Engineering (Honours)
- Bachelor of Electrical and Electronics Engineering (Honours)
- Bachelor of Environmental Engineering (Honours)
- Bachelor of Mechanical Engineering (Honours)
- Bachelor of Mechatronics Engineering (Honours)

Visit deakin.edu.au/ignited-scholarship for full details and how to apply for an IGNITED scholarship, including selection criteria and closing dates.

While the information provided here was correct at the time of publication, Deakin University reserves the right to alter, amend or delete details of the course and unit offerings. Printed July 2018.

Global Science and Technology Program

The Global Science and Technology Program aims to recognise, reward and support high achieving students who would like to conduct part of their studies overseas in order to develop new skills and a broader world view.

Successful applicants will receive a \$3000 scholarship to assist with travel costs and will participate in the Deakin Global Citizenship Program.

Participating in this program can benefit students in many ways, including:

- increased independence, self confidence and self awareness
- increased awareness and appreciation of other cultures
- ability to meet challenges, problem solve and work

The program is available to students interested in studying any undergraduate course offered by the Faculty of Science, Engineering and Built Environment, with scholarships awarded to those who achieve a minimum ATAR of 80.00 and are admitted to the program through VTAC.

For full details about the program, how to apply and to find out where students have travelled to in the past, please visit deakin.edu.au/sebe/global.

Note: applicants can apply for the Global Science and Technology Program through a single VTAC code. All undergraduate courses offered by the Faculty of Science, Engineering and Built Environment are eligible for this program and applicants are required to submit a supplementary form outlining their course preferences.
