MONDAY 09 JUNE #18

BEHIND THE JOB: Bioinformatician

What are their strengths?

- Computational and programming skills
- Analytical and problem-solving abilities
- Ability to work with large datasets
- Research and innovation skills

What do they do?

Bioinformaticians analyse biological data using computer science and statistics. They work on projects related to genetics, medicine, and biotechnology to improve healthcare and research.

How do they get started?

A Bachelor's degree in Bioinformatics, Computational Biology, or Biotechnology is typically required.
