Charles Allan Seymour Hawker
C.A.S. HAWKER SCHOLARSHIP

C.A.S. Hawker Scholarships are one of the most generous privately funded scholarships available to undergraduate students in Australia. Each residential scholarship is valued at up to \$60,000 over three years. The scholarships are available to all Australian students, and the majority are usually awarded to students entering their first year of university studies. Selection is largely based on personal qualities and demonstrated leadership as well as academic ability. Undergraduate Hawker Scholars are able to attend a range of Australian educational institutions, so this scholarship is not restricted to one university.

The Charles Hawker Scholarship perpetuates the memory of scholar, soldier and pastoralist Charles Allan Seymour Hawker and commemorates the achievements of one of Australia's most respected statesmen.

The 2022 C.A.S. Hawker Scholarships will open on Monday 6 December and close on Friday 7 January 2022.

Current Year 12 students are encouraged to browse [Hawker Scholarship](#) for more information about the scholarship, and to download an application form.

Letz Live has a brand new programme that could see Year 12 graduates getting overseas for 2022. With the world opening up, now is the time to plan the adventure of a lifetime.

Applications are now open for the **new Camp Activities Assistant** in the **UK**. This 6-8 month placement will involve working in a leading outdoor educational centre. The role will see assistants supervising various outdoor activities, which may include *paddle boarding, high ropes, quad biking, sports* and more.

Participants will receive on-site accommodation, all meals, and a monthly salary. They will also take part in an orientation in London where they meet a network of other participants, before heading to their training and placement.

Students keen on finding out more are recommended to browse [Letz Live Working Holiday in the UK – Activity Camps](#)

An important tip for school leavers for getting a job is to create yourself a **LinkedIn** profile. LinkedIn is like a professional Facebook account where you can blog, comment on professional discussions, and build a professional portfolio that aligns with your resume. This needs to be developed over a period of years before graduating from university, so start soon, and continue to work on it during university.

www.linkedin.com

Top Tips shared by the head of LinkedIn, Cliff Rosenberg

PICK A PROFESSIONAL SHOT

Including a profile picture in your profile is a must. Putting a face to your name makes it 21 times more likely to be viewed, but first impressions last, so make sure your profile picture is professional.

INCLUDE A SUMMARY

Clearly outline your professional story; what your aspirations are and what qualifications you have to offer that others do not. This is your opportunity to demonstrate how your unique qualities make you perfect for your dream role. This is your elevator pitch.

BUZZWORDS ARE BUZZKILL

Are you motivated, creative, passionate? Great. So is everyone else on LinkedIn. Do yourself a favour — delete every single one of these buzzwords from your profile and replace them with keywords.

HIGHLIGHT YOUR EXPERIENCE

Illustrate your unique professional story and achievements by adding pictures, compelling videos and innovative presentations to your experience section. If you are just graduating, include your school history.

SHOWCASE YOUR SKILLS

Maintaining a relevant list of at least five skills on your profile will help others understand your strengths and match you with the right opportunities. Also add other certifications that highlight important skills.

STAY ACTIVE

Share content that excites you, such as a gripping video, a well-written news story or a particularly impressive presentation through status updates.

[Good Universities Guide - Optometrist](#) states that *Optometrists perform eye examinations to determine the presence of vision problems and other eye conditions and disease. They treat or manage these problems by prescribing glasses, contact lenses, optical aids, vision therapy, medication (in the form of eye drops) or referral to an eye surgeon when required.*

Optometrists need to have a patient and caring manner; be able to carry out accurate and precise work, have good communication skills, and enjoy helping people.

To become an optometrist a student usually has to study optometry at university. Alternatively, they can complete a degree in vision science or a relevant area at university, followed by a postgraduate qualification in optometry. Prerequisite subjects, or assumed knowledge, in one or more of English, mathematics, chemistry, biology and physics are normally required. Entry to postgraduate courses usually requires completion of an appropriate bachelor degree. A number of universities in Australia offer these degrees. Universities have different prerequisites, and some have flexible entry requirements.

Optometry courses on offer in Australia include -

INSTITUTION	COURSE	ENTRY REQUIREMENTS
DEAKIN UNIVERSITY	Bachelor of Vision Science/Master of Optometry	Units 3 and 4: a study score of at least 30 in English (EAL) or at least 25 in English other than EAL An ATAR of 95+
	Master of Optometry	Completion of a Bachelor of Vision Science, or equivalent, with an emphasis on an adequate coverage of vision sciences
FLINDERS UNIVERSITY	Bachelor of Medical Science (Vision Science), Master of Optometry	Assumed knowledge of Maths Methods, Chemistry and Physics An ATAR of 96+
QUEENSLAND UNIVERSITY OF TECHNOLOGY	Bachelor of Vision Science/Master of Optometry	English/EAL, Maths Methods or Specialist Maths, Chemistry, Physics An ATAR of 99+
UNIVERSITY OF CANBERRA	Master of Optometry	Only open to students who have completed the Bachelor of Vision Science at the University of Canberra
UNIVERSITY OF MELBOURNE	Doctor of Optometry	An undergraduate degree (or equivalent), and three subjects at second or third year level (or equivalent) in one or more relevant biological science disciplines plus the GAMSAT or MCAT
UNIVERSITY OF NEW SOUTH WALES	Bachelor of Vision Science with a Master of Clinical Optometry	English/EAL, Maths Methods, Chemistry, Physics An ATAR of 99+
