

Emma Zipper

I have been a member of Council since my daughter, Ilana, started at Preshil in Year 9. I am a lawyer with a background in corporate law, regulatory (particularly in the health and technology sectors) and governance. Having been a General Counsel and Company Secretary in an international health care group for 15 years, I felt that my experience in the Boardroom could be helpful by bringing my exposure to best practice corporate governance and understanding of risk management in the context of a regulated sector.

I was motivated to join by a desire to make a difference to a school that embraced innovation in education. I was inspired by the ethos and history of the School as a leader in progressive education and the focus of the School on the education and wellbeing of every student, encouraging them to become creative and courageous lifelong learners in a rapidly changing world.

I have really enjoyed this time on Council.
