

Foundation 2024

Literacy & Numeracy Update

Students have started learning phonemes! The sounds we are learning this week are /s/, /a/, /t/ and /p/. They are also continuing to learn letter names.

In Maths students are sequencing familiar events and learning the days of the week.

Reminders:

Information has been sent out for our upcoming swimming program. Please update your student's attendance on Sentral.

Skill in Focus: Phoneme

A phoneme is a speech sound. Students are learning how to articulate each phoneme, including how to position their mouth. They are also learning how to hear sounds in words and where they are positioned.
