How to become an Architect in Australia

By the year 2030, the world will need three billion new homes. What's more, architects will have to create buildings that are 'net zero carbon', with sustainability, culture and people front of mind. It's clear that architecture is essential for improving people's lives – both now and in the future. So how do you become an architect in Australia? The short answer is study (a Bachelor's degree and a Master's degree), professional experience, an exam, and professional registration. Ready to understand that journey in detail? Let's take a look at how you can become an architect in Australia – and the advantage studying with UNSW will give you.

UCAT For Entry to Medicine in Australian and New Zealand Universities

The UCAT ANZ is a compulsory entry requirement for our Australia and New Zealand Consortium universities. You are required to sit the UCAT ANZ 2025 test (between 1 July and 5 August 2025) if you are intending to apply for entry in 2026 to a relevant course or programme listed below. UCAT ANZ results cannot be carried over from one year to the next. For example, results from UCAT ANZ 2025 can only be used to apply for courses commencing in 2026. Some pathways to medicine/dentistry/clinical sciences will not require the UCAT ANZ. For some applicants a different test may be required. You should always check the entry requirements for each course or programme using the websites of the universities to which you intend to apply before booking a test. There are no general exemptions from the test.
