

What is KTalk and who are you?

My name is Kerryn Burgoyne and I have Asperger's Syndrome. I am passionate about speaking of my own experiences to the public about this disorder from a lived life experience & not an academic perspective.

KTalk is an Innovative advocacy, advice, education & training agency in ASD (Autism Spectrum Disorders) to the general public by providing them the knowledge, empowerment, & necessary skills to equip them to assist with either their family member/friend/sibling who may have the condition.

Where have you trained people in the past?

Kerryn/KTalk has also done numerous sessions for schools/groups in many different areas including interstate conferences.

Kerryn has educated people from children in primary schools to lecturing University students in psychology courses to medical staff

including doctors/nurses/psychologists & psychiatrists.

"Kerryn speaks frankly and passionately about living with Autism Spectrum Disorder (Asperger's Syndrome) and the many difficulties she encountered as a child, at school and as an adult. Her insight/intuition has helped many members of the community better to understand the lived experiences of those on the spectrum.

Her training courses offer a structured approach to the understanding and management of Autism Spectrum Disorders." Amanda Golding, parent of an adult with Autism and consultant to the ASD community

How much does it cost for a training session on Asperger's and how long do they run for?

Training sessions usually run for 2 hours including a question time. It will all depend on where the client is located. Fees are higher outside the Melbourne CDB for travel/accommodation costs. All

information is available via the KTalk website.

What is the flexibility of this training?

Flexibility is always the No 1 key for training. This all depends how many sessions you require for your company/organisation or group. Kerryn/Ktalk is always both flexible and adaptable to the clients' needs at the time of negotiations between both parties.

Is there any other support available from the training session?

Should you need any further support from your training session, simply contact us with your enquiry, and we'll arrange a support session for you. This can be done over a Zoom or Teams meeting if necessary.

Is there anything else that I need to know?

Yes, for training sessions, a data projector and laptop equipment will need to be provided for presentations.

Meetings are required to discuss training needs for organisations/companies.

Once settlement of fees have been finalised prior to commencement of training given, and all is agreed too, then the files for that session, will be developed for the client's preference.

Where to from here?

You are more than welcome to make an enquiry via email or phone call to Kerryn. Please use the contact details on this brochure or via the website.
