### **Steps to Apply to Uni – UAC**

If you're unsure about what you'd like to do when you finish school, and are wondering if University is for you, you're not alone. Just remember that Uni isn't only for the brightest students or for those with a specific career path in mind. Uni is for anyone who's committed to reaching their full potential and wants to acquire the skills and experience to achieve their goals. Keep your options open by taking the time to understand how the University application process works, how institutions use the ATAR to select students, non-ATAR pathways to tertiary study, and the many levels of financial support available to you.

### **UTS - Support your UAC application with the Engineering and IT Questionnaire**

If you fall short of the selection rank requirement by one to three points, we'll still consider your application if you submit the Engineering and IT Questionnaire and demonstrate a strong motivation to study engineering or IT. You achieved a minimum selection rank of 75. This selection rank cut-off includes your raw ATAR and adjustment factors. You've listed UTS Engineering or IT as your first preference in UAC. Download this template and input your responses to these three questions were asked:

Why are you interested in studying at UTS and what do you expect to gain from your experience in the Faculty of Engineering and IT?

Which of your personal attributes and skills will assist you most in your future career?

Describe something you have created or designed and how it is related to your preferred course.

OR

Share your favourite example of engineering or technology and why you think it is amazing.

## **UTS - Bachelor of Information Technology (BIT) Co-operative Scholarship - Closing Soon**

Closes 8 September

The BIT is a highly competitive course – it's been designed with future leaders in mind. To get in, you'll need to demonstrate how you stand out from the crowd. Successful students generally achieve a Selection Rank of 88–99.95; however, your ATAR is just one component of your application. The interview is your chance to show us your passion for technology. We also want to see your communication and interpersonal skills and your desire to be a leader in your field. We balance our selection criteria against one another. So, if you've got a lower ATAR (say, 85 or 86), wow us in the interview and you could still be in with a chance.
