Term 2, 2021

Over the past fortnight the children have been participating in a whole range of different activities, we had made some delicious chocolate truffles, some sticky slime and had some free craft time, which allowed the children to use their own ideas and imaginations to create something awesome!

We also took the time to speak about ANZAC Day and what it represents, the children were very respectful and happy to join in the crafts and activities that we had planned to represent this day. We made a poppy branch by using some sticks we found and a poppy flower by using tomatoes, olives and cucumber. These were great activities as it allowed some of the children to try something new, which were the olives and learn that nature can also be used to make art.

Reminder - Please ensure your child/ren have names labelled on their drink bottles and uniforms.
