

GLOBAL CLIMATE STRIKE

FRIDAY 20 SEPTEMBER

EVERYONE INVITED

EVERYONE NEEDED

We are in the thick of the climate crisis.
But we just elected a Federal Government that wants to open the floodgates to new coal, oil and gas projects that put all of us at risk.

Join us on September 20 – three days out from the UN's Emergency Climate Summit -- by taking the day off school, uni and work to show our politicians that we're serious about climate justice for everyone and they should be too.

The world isn't waiting so nor are we.
