

# Therapeutic Adolescent Program

**TAP-In** is a voluntary, short term, intervention program offered by Anglicare to provide support to young people (aged 12-18) who have been using (or at risk of using) violence in the home.

The **TAP-in** practitioner will work with the young person to:

- *Identify and address the underlying influences that may be causing violence in the home.*
- *Develop safety and management plans for the young person, their parent/carers and their siblings.*
- *Provide specialist assessments and services as identified.*
- *Build strengths and improve positive factors in the young person's life.*
- *Provide a trauma-informed response to address the impacts of the family violence by the young person.*

**For further details or to request a referral form contact:**
