

HEALESVILLE SANCTUARY

Flynn

Yesterday morning we all shuffled on the bus to Healesville sanctuary the drive was one hour and 20 minutes. To get there the first thing that we saw was a sleeping koala one of the other koalas was so active.

And then we had recess. After recess we walked to the birds. As soon as we walked in the birds enclosure one of the birds looked like a stachyone and it was pretty big and scary.

And last of all we all walked to birds of PRAY! one of them was a massive parrot that was very fast like a falcon. and I hope you liked Healesville sanctuary.
