

# TRAVELLING SAFELY

## Cranbourne South Primary School School Crossing Concerns

JOINT INITIATIVE BY:

### School Crossing Safety as a Pedestrian

- Always use designated school crossings when crossing the road.
- Stand behind the yellow line and wait for instructions from the crossing supervisors.
- Listen for two whistle blasts before stepping onto the road.
- Students riding bicycles must dismount and walk their bikes across the road.
- Do not bounce balls when crossing.

### School Crossing Safety as a Driver

- Keep the crossing **clear** and **never stop on it**.
- Stop when crossing flags or a hand-held **STOP** sign are displayed.
- Wait until all pedestrians and Crossing Supervisor have left the crossing before driving.
- Approach crossings slowly and be prepared to stop.
- Always watch for children near schools.

### Working Together for Safety

- By following these simple safety rules, we can all help create a safer environment for students, families, and the wider school community.

Getting children to school  
safely is everyone's job!
