

Roll 10 to 1000

	Hundreds	Tens	Ones	Total
1				
2				
3				
4				
5				
6				
7				
8				
9				
10				

How to play:

1. Use the 0-9 dice
2. Each player takes turn to roll the dice
3. Both players choose where they would like to place the number.
4. Write the value of that number in the total column.
5. As you roll each new number, add it to the last to create a running total.
6. By the end of the 10 rounds, whichever player is closest to 1000 is the winner. You can go above or be just below 1000 to be the winner.
