

DOMICILE

BUILDING DESIGN

DOMICILE BUILDING DESIGN is your local architectural drafting and design practice, owned and run by BPNS school mum, Candace Deasley.

We create tailored, high-quality habitats based on individual needs and budgets. We pride ourselves on providing common sense-based sustainable design solutions, resulting in beautiful, practical and functional living spaces.

We are very proud to be one of BPNS Fetes' Platinum Sponsors this year, and as part of the Silent Auction are offering **a complete set of sketch design drawings to the value of \$5000** for a residential project.

Additionally, Domicile Building Design would like to offer you a free 20-minute consultation at our stall to discuss your project aspirations and provide you with architectural drafting and design advice.

Get in quick to secure your appointment using the phone number below. Bookings are limited and will close Monday 9th of March.
