Why Ice cream Is Better Than Chocolate

Ice cream is better than chocolate because...

I like ice cream better because you can put different toppings on ice cream. For example: Syrup, nuts, chocolate and sprinkles.

There is also tons of different flavours you can try. For the best, go to Augustus Gelatery in Fern Tree Gully.

Ice cream is also better than chocolate because more people enjoy the vanilla flavour than the chocolate ice cream.

A large area of lined paper for writing, consisting of a vertical red margin line on the left and horizontal blue lines for the main text area.
