

NASA Space Camp

Permission FORM

The proposed Space Camp in September 2023 can only go ahead if a minimum number of students attend due to the costs involved. To work out if we can proceed with further planning we need a confirmed expression of interest including parental approval from students who wish to attend.

Due to the significant costs involved a staged payment process will be implemented that aims to avoid high cost times of the year (e.g Christmas) Although fundraising to offset some costs will be a key task for the students and staff in the Space Camp team, families will incur the majority of the cost.

We are currently looking at a cost of around \$7,500 - \$8,000 depending on how many students attend.

As with other school payments, families can make arrangements to make regular payments rather than paying the installments in one payment.

The group would spend 3 days in Washington visiting the famous Smithsonian Institution's National Air and Space Museum which maintains the largest collection of historic air and spacecraft in the world. They would see national monuments and federal buildings flooded in lights during a 3 hour guided tour of the city after dark, from the illuminated dome of the US Capitol to the The Kennedy Centre, Library of Congress, Supreme Court, House and Senate Office Buildings, Federal Triangle, Pennsylvania Avenue, The White House, Capitol Reflecting Pool, Georgetown, Marine Corps (Iwo Jima) Memorial, and the World War II Memorial.

The form below provides the opportunity to indicate confirmed intention to participate. Once numbers are confirmed, a further information pack will be distributed and an information session will be held to allow the Space Camp team to start working towards a successful trip in 2023

Please complete the form below if you intend your son/daughter to attend the Space Camp trip in 2023 and return it to Paul Natoli at the school.

Yes, I wish my son/daughter to attend the 2023 Space Camp trip to the USA. I understand the costs involved in this trip and commit to meeting the costs required of families.
