

HEALESVILLE SANCTUARY

Jack 36

On Monday we raced to school and got on the bus. On the bus we went past so many places I'd been to I thought we were going to my house at some point. When we got there people started talking to us and then we had resses which was nice. After that we went to see the kangaroos and koalas and one of the koalas did a jump which was wery cool and funny. We named him skills and I had a staring contest with a koala and it won. Then it was time for the lesson and we design~~nged~~ed a breeding box and looked at birds and we found a binchikenx and another one that started flying but then I wondered why do they have such heavy chests! The reptile room was so cool. At the bird show I liked when the falcon throw the rock at the egg and kept waddling to get the rock back. Then we had lunch and went home and I had so much fun.
