Resources Engineering – Mining and Renewable Energy

Are you passionate about ensuring we will have the resources we need for our future industry and society?

Then Monash Resources Engineering, ranked in the top 10 worldwide for both Mining and Renewable Energy, could be for you (Academic Ranking of World Universities 2019).

Join Monash for an online presentation to learn more about this exciting field and its many career opportunities on Thursday 30 July from 5-6pm.

Have you considered vocational education and training (VET)?

Have you considered pursuing vocational education after school?

Research shows that 4/5 parents would prefer their child to go to university after school over vocational education and that many young people and parents don't understand the benefits of vocational education and training (e.g., TAFE, apprenticeships, traineeships).

2017 Australian research suggests that:

- 9 out of the 10 top occupations predicted to have the most jobs growth are in vocational training areas.
- The median full-time income for a vocational education graduate is \$56,000 vs \$54,000 for someone with a bachelor degree.
- Nearly eight in 10 vocational education graduates have a job soon after training, vs about seven in 10 university graduates; and
- More than nine in 10 trade apprentices have jobs after finishing training.

You can read the research report at this link - <https://bit.ly/2loYzIR>
