A message from the team

At MACSEYE, we provide a safe, inclusive environment where every child feels valued, builds lasting friendships, and grows in confidence through free play.

Over the past week, the children actively engaged in a diverse blend of creative, cognitive, and physical activities that fostered both their learning and social skills. Driven by an emerging interest in paper crafting, they made intricate art of origami, refining their fine motor skills and spatial awareness as they successfully folded flowers, birds, boats, butterflies, and various animals. This interest in the natural world seamlessly bridged into a child-led ocean theme, where the children immersed themselves in drawing marine life and completing specialized word searches. This thematic focus not only significantly expanded their vocabulary and strengthened their concentration, but it also fostered peer collaboration as they enthusiastically challenged each other to locate hidden words.

In the construction zone, the children channelled their imagination into a collaborative LEGO project, successfully designing and building a police station, local shops, and structured gardens. Cognitive development and strategic thinking were further supported indoors through classic tabletop games like Jenga, Battleship, and Guess Who?.
The children actively participated in organized sports such as soccer and basketball, challenged their physical limits on the monkey bars and slides, and practiced coordination through cooperative ball-passing games, all while continuing to enjoy open-ended, sensory exploration within the sandpit.

Thank You
Regards,
Poovamma
Coordinator

Check out the fun!

Origami flower

Outdoor play

Ocean theme Word search

Projects we are working on

Drawing and Colouring Challenges:
Children engage in themed drawing and colouring competitions with their peers, encouraging creative expression and artistic collaboration.

LEGO Fun:
Children use interlocking bricks to build, modify, and create anything they can imagine which encourages collaboration, fosters creativity and builds persistence.

Term Dates

5th October - 15th December 2026
