

JOB: Aquatic Dream Weaver

373 Dolphin Avenue,  
Victoria 3131

Wednesday 30th August.

Dear Sir or Madam,

My name is Shriya.

I would like to apply for the job of Aquatic Dream Weaver.

I would like to apply because I love animals and I stay calm with them.

It is a great job and I would love to get it.

I have always been gentle with the animals like when I go to the aquarium I make sure to not scare them. I love to make animal friends and since it is one of my hobbies I really hope to get this opportunity of a lifetime. I try to make a bond with the animals and I try to build trust. I have great communication skills. I encourage the animals so they feel happy and proud.

Having this job means that I can help the animals and teach them new and interesting talents that people will enjoy as well as the animals. I can do that by taking it step by step, communication and letting them have fun along the way. I can train them to perfection with a performance that will be the best anybody could have seen. I have patience to take this job as well as great skills. I never give up even if things aren't going exactly the way I want it. With all of these skills I can make a perfect friend to the animals.

These animals will surprise you with their never seen before talents.

I will guide them all the way so they can achieve success.

Even the seals and dolphins can work together to make a stunning performance.

I am ready for all the challenges to show what the seals and dolphins are capable of.

As this journey will continue the animals will become skillful as well as trained.

You will need someone who is a super swimmer which I am. I can provide you with an example.

I am in the highest level in swimming and only a very few people are on that level.

Not even professionalists can swim as fast as me.

The animals can make a performance which will make the audience stand there shocked.

The audience will be surprised with the best performance ever!

With the animals having a touch of fun they will persevere hard.

It is a job that involves responsibility and care which I can do. Responsibility is a great way to show how much I can be trusted because if I am responsible it means that I can be in charge which includes trust.

It is a big responsibility and I bet I am a perfect person for that. There aren't many people who can complete a big task. So I am the best person for your amazing and interesting job. The animals will be the most delighted to see me.

Thank you for reading my letter about why I should get the job.

As a reminder, I am ready to take the job and all of the responsibilities. I believe that the animals will be delighted to see me and will want me. I am a super fast swimmer and I can make the best performance that will make the audience shocked!

Thank you again for reading my application. I hope to get the job and see you soon.

Sincerely,  
Shriya.
