

## Work Placement Host Request

Thank you for considering supporting the St Patrick's College Vocational Education & Training (VET) Programs by considering hosting a student from Year 11 or Year 12 for a 35-hour, 1 week placement.

VET Courses in schools provide workplace skills, technical knowledge and TAFE qualifications to students whilst they are still at school, consequently creating pathways for rewarding jobs and careers.

VET is a practical education option with courses designed by industry experts that combine work-ready skills for the rapidly changing work environment.

Should you decide to do this, we would very much like it if you would allow us to place you on our list of providers so that we may be able to reach out to you in the future. This however is not mandated, and you may wish to only host a student this one time.

If you are happy to be placed on our list however, please fill in and return the following form with the included "host employer" paperwork, either via the student that has approached you, or to [joshua.true@spc.nsw.edu.au](mailto:joshua.true@spc.nsw.edu.au).

Should you wish to find out more about Work Placement Host opportunities, please don't hesitate to contact me on 9763 1000 or via the above email address.

Regards,

**Josh True**

*Head of Vocational Education & Training*

I would like to become a St Patrick's College VET Work Placement Host.

I can provide placement for students studying:

- ☐ VET Construction
- ☐ VET Entertainment
- ☐ VET Hospitality
- ☐ VET IDT
