## CIA REPORT By Phoenix

Today at the beach Phoenix went exploring in the rock pools where he and his mum collected some rubbish out of the water that nearly got washed out at sea and then they saw a hole in a tree with a sign saying that people are poisoning the trees which Phoenix and his mum found really sad. But then they had an idea to try to encourage people to clean up the beach so if you live near the beach you should pick up some rubbish.

## BOOK REPORT By Ruby

Paul Jennings (author) The Busker, (around the twist book series)

Paul Jennings is the best Author in the entire universe. He doesn't draw pictures in the books, he paints them with words. His descriptions are off the chart, AMAZING and this story in particular is one of his best. This Book is called the Busker. The book is based on a greedy man and puppy. This man is very

envious of the puppy, she gets all the attention while dancing on the street. One day the man stops feeding her, she gets slim and unhealthy. The man turns out to be a loving man. The story is emotionally heart-warming and it brings tears to my eyes as I read it.

I recommend the busker for independent readers.

## ROYAL MELBOURNE SHOW CANCELLED AGAIN

The 2021 Royal Melbourne Show Has been cancelled for the second time. Unfortunately, this means we won't be able to see the animal shows, go on the rides, try shearing a sheep or milking a cow and so on. If you don't want to miss out on the fun, you can order one online with the link down below. Or set yourself a challenge, design and fill your own show bag! The cancellation is due to ongoing challenges and the risk of holding major events with such a large number of people during the covid-19 pandemic.

The Royal Melbourne Show was scheduled to be held for 11 days, 23<sup>rd</sup> of September to October 3<sup>rd</sup> at the Melbourne Showgrounds.

Usually the Royal Melbourne Show is Victoria's most largest and most iconic annual community event, attracting 450,000 visitors over 11 days each year and contributing more than \$244 million in value to the State of Victoria's economy annually.

The Show has been the signature event for Royal Agricultural Society of Victoria since the organisation was first formed in 1848. It has only been called off on two occasions prior to 2020. First, when Melbourne Showgrounds was requisitioned for the war effort in 1915 and again during World War II between 1940-1945.

The first Royal Melbourne Show after World War II attracted record attendance and the Royal Agricultural Society of Victoria looks forward to history repeating itself in 2022 when the Royal Melbourne Show returns bigger and better.

## WELLBEING By Henry

Remember no one can change who you are. Think positive, there is always a light at the end of the tunnel. 5B's wellbeing coordinator is Henry. He will be managing any problems relating to friend issues or wellbeing. Henry may be organising random S.P.U.D. games when we finish our work early and mindfulness activities, most likely on a Thursday. Remember If you need any support, contact Henry on teams and he will try his best to help you.

## JOKES

Q. What did baby corn say to mummy corn?  
A. Where's pop-corn?!

A. A mashed potato!

Q. What's worse than finding a worm in your apple?  
A. Finding half a worm!

Q. what do you call a pig that knows karate? A. a pork chop!!

## SCIENCE WEEK

Science week was first established in July 1983 by Don Hyatt. The program let students participate in a diverse range of science investigations and events.

ASTA held a competition for students to design the ASISW logo. The winning design came from Iain Robertson of Christies Beach High School, in South Australia, who received a book prize, ASISW T-shirt and a badge.

After Don Hyatt handed over the company to a new ASISW team in 1988, the program continued until 1997. Through this time, ASISW was managed solely by ASTA as a schools-based event. National Science Week engaged with hundreds of thousands of students, in thousands of schools, across Australia.

# THE 5B TIMES

P.E

This week we have been focusing on high jump techniques for when the finals come for the people who made it. Some of the techniques that people do are called the scissor kick, straight start and circle run. Two weeks ago, we did high jump and the people in first were: Kieran and Xavier {not sure who else made it}. So that's what we did this week.

Reporting live - Kieran.

## Why Do Cats Hiss?

By Eddie

Cats hiss a bit like snakes.

We think this is because they are annoyed, but there are lots of reasons why cats hiss, not just because there might be an intruder in the garden!

When a cat feels threatened they hiss and show their teeth, flatten ears, and arch their back which makes their fur stick up.

Some other reasons cats might hiss could be warning signs, if they are in pain, unsure of new things, stressed out, rough play, or you could just be annoying them!

## JOKES FOR FUN!!!

What did the teddy bear say after finishing dinner?

[I'm stuffed!]

What do garbage bins eat?

[Junk food!]

What is Luke Skywalker's favourite telephone network?

[Yodaphone]

Where do snowman get their information from?

[From the Winternet!]
