

**TARNEIT**  
P-9 COLLEGE

Dear Parents and Carers,

We welcome everyone back to Term 2 to remote and online learning. Although this term looks a little different, we have already had great success in continuing our teaching and learning. We have tremendous pride in all our students and families and taking on, what at times may seem challenging.

We would like to thank all our teachers for their incredible planning and collaboration during this time, our students for their flexibility ability to adapt to online learning, and our parents/carers for all their support.

Teachers and students have been working hard to upskill themselves around the use of different technology and programs, as our students have and become more independent in their learning and become more solution focused when troubleshooting issues. We applaud them on their efforts.

To support and promote learning with your children, we encourage our parents and carers to ask your children the below questions:

- What did you learn today?
- How did you do?
- How can you improve on your learning?
- What are you most proud of?

These questions create opportunities for informative conversations and provide a script for discussion.

The below two examples are only snippets of the work that is being uploaded online. Prep students have been working hard to write sentences using a pattern, to identify the beginning and end sounds in the words "red" and 'wolf'.

**Geethanjali, Prep CA.**

Geethanjali has demonstrated fantastic sound knowledge in the example.

We are very proud of her!

P-9 COLLEGE

In Year 1, students have been learning about Australian money, as well as looking at money from around the world. Students have been learning about the features of Australian coins such as size, shape and what you can see on each coin. Upon returning to school, that the canteen lines will be very long with confident students.

Below are a few wonderful examples of all the hard work that is happening at home. Keep up the great work!

**Yana, 1CP**

Ordering coins and learning all about the different features.

Well done.

Thank you for your continued support and we look forward to the time where we can once again. Please continue to support your children in their online learning and please contact the College with any questions or concerns.

Kind Regards,

**Matt Naudi**

Assistant Principal, Prep- Year 1
