

# Guided Access

This locks the into a specific App with a set time limit

→ this is useful to ensure that our young people stay in the set/ specified app & you can enable them to stay in that app for a time that you set.

1	Go to settings	
2	Accessibility	
3	Guided access (scroll down to the last group of tools at the bottom) → make sure that it's turned on/ turn on green	
Then go into the <b>App</b> you'd like		
4	Triple click – quick clicks (the on/ off button)	

	<p>In the bottom left-hand corner → it says 'options' – click on this – then you can change the time limit</p> <p>In the top right corner, it says 'resume' – this then gets the time going</p>
