Yarra
Ranges
Council

16 March 2021

Principal
91 Morris Road
Upwey VIC 3158

Dear Sir/Madam

Proposed road construction works along Riley Road, Upwey.

Further to my letter of 4 July 2019, I am writing to provide details regarding the proposed road construction and sealing works along Riley Road, Upwey.

Please find attached for your information layout plans for the proposed road construction / sealing works.

The standard of works will provide an asphalt seal varying from 2.8 to 5.5 metres in width with concrete edge strip or kerb and channel along the length of the road. A concrete footpath will also be constructed along the Upwey South Primary School fence line from Griffiths Road to the entrance gate located opposite number 18 Riley Road. The existing emergency access gate will be relocated closer to Morris Road, with a sealed vehicle turnaround area being constructed near Morris Road. The existing arrangements for the opening and closing of the emergency access gate will remain unchanged.

As part of the works a large pine tree (located in front of 54 Griffiths Road) will be removed to allow for road widening works.

Council is proposing to carry out the road construction works during 2021. Further information regarding this project will be provided closer to the start of construction works.

Should you have any queries regarding the design or proposed works, please contact Damien Southall Project Engineer on 0417 660 435.

Yours sincerely

Grant McCarthy
Executive Officer, Roads for the Community Initiative
