2024 School Immunisation Program – What’s new?

Coming next year – Online Consent

Completing and returning Immunisation consent cards to the school can be a cumbersome task for parents, guardians and schools risking lost and/or incorrectly completed forms.

In 2024, we will be introducing Online Consent via the Department of Health’s **CIRV (Central Immunisation Records Victoria)** portal. This will support parents/guardians with students in Year 7 and 10, to respond directly online (using any device) and remove the reliance of card collection and retention at schools.

How will this work?

- **Council’s** will provide your school with a link to the Department of Health’s **CIRV** portal.
- **Schools** will make this link available to the parents/guardians of eligible students. This link will be specific to the student’s School and Year Level.
- **Parents/guardians** login to the **CIRV** portal via the link and complete the details to provide a consent response.

Further information will be provided for parents/guardians closer to the time.

Regards

Immunisation Team
