**Parenting Adolescents: A
Creative Experience**

Resilient Families Program

NETWORK WITH PARENTS IN YOUR COMMUNITY!

The Parenting Adolescents: A Creative Experience is an 8 week program learning different types of skills and approaches to support you in your role as a parent or carer of an adolescent in Year 7. The aim of this program is to strengthen connections between parents, children, and the school so we can support each other and create a strong community.

Effective communication with adolescents can be an art form! Understanding their needs whilst also understanding their interests such as the latest social media throwback can be difficult to keep up with. This program assists carers and parents to tackle the difficult questions and moments that pop up in day to day life with young people. Negotiation and problem solving is key to effective communication.

**The 8 week PACE program
commences on Tuesday the 29th
August 2017**

**At Fairhills High School
Scoresby Road, Knoxfield**
