

What's been happening...

Welcome to Term 2!

We hope you had an amazing holiday break

To start off the term we shared our holiday experiences during group discussions. This inspired ideas and suggestions that we could work on at OSHClub for this term

The kids have been thoroughly enjoying group activities and sports outside. Seeing them work on their teamwork, sportsmanship and social skills has been amazing, as well as seeing new friendships flourish.

We will continue to encourage this by incorporating more sports activities group games and imaginary play into our program.

Quality Area Reflection

Quality Area 2: Children's Health and Safety

When starting back at OSHClub after the school holiday break it was important that we discussed with the children about the guidelines and boundaries we have been implementing throughout Term 1.

All of them were superstars in remembering our guidelines of walking feet inside, being kind to others and sharing the resources.

We also reminded them about the importance of washing our hands, especially before we eat.

Club News

During this upcoming Term we want to work on creating more opportunities for the children's ideas and input to be brought to life.

We have continued to do children's meetings with them and incorporate their ideas to into our program, which can be seen on our planners in service.

We would all really value the families' suggestions, feedback, and ideas to ensure this service can be made better for everyone.

Please let us know if you had any ideas that you would like to share.

Important Information

From the beginning of term, we have seen a huge increase in the number of children coming to both before and after school care.

Which is amazing! We LOVE seeing new faces and the children have made so many new friends.

We understand that last minute bookings are inevitable; however, having your children's booking done as early in advance as possible, allows the service to ensure we have the appropriate foods for those who may have specific dietary requirements and food intolerances.

Earlier bookings, also give the service more sufficient time to plan activities for larger groups and ensure we have enough resources for all children to participate.

OSHClub Stars

Taylor from Prep L built an AWESOME boat with attached jet-ski out of LEGO

Fenix from 1/2C continued his robot construction made from the connector squares.
