The Iramoo Young Stewards is for young adults (16-29) who want better outcomes for our remnant native grasslands in the west of Melbourne. Collaboratively, the group will develop some grassland project ideas.

With the assistance of a facilitator, some of your ideas will be implemented by early 2024. Ideas can be field-based, community-focused, creative art initiatives, tech-based – bring your ideas and explore the possibilities.

This project is supported by the Victorian Government.
