Investing in Women, Accelerating Progress

TTC & iDE Global Partnership

TTC has partnered with iDE for over a decade to empower rural small-scale entrepreneurs around the world to end poverty. With this collaboration, women entrepreneurs in low-income and marginalized communities can go from surviving to prospering in their business.

We believe that markets are the most powerful tool for creating prosperity, building resilience, and ultimately ending poverty.

TTC and iDE Partnership

This year, the UN's International Women's Day theme is "Invest in Women, Accelerate Progress." This is the long-time strategy of our nonprofit partner <u>iDE</u>, an organization powe entrepreneurs to end poverty in their communities for generations. In 2023, we partnered with iDE throughout their <u>40th Anniversary Celebration</u> as they highlighted women ent ending poverty through their own <u>40 under 40 series</u>.

See this week's $\underline{\text{IDE LinkedIn post}}$ highlighting TTC's support:

Women play a significant role in the fight against hunger and pover innovators

Building Prosperity Around the World

Last fall, our very own TTC team member, **Sarah Moran, senior manager, talent management and development,** had the opportunity to visit Cambodia with iDE to see the impact women are making in their communities. Hear more about Sarah's experience in her own words.

In her many conversations with men and women building prosperity in their regions, one group that stood out was an agricultural cooperative she spoke to nearing her final days in Cambodia. Women in rural Cambodia have limited access to technology and resources to grow their businesses and even more limited power in the markets they sell. By working with iDE to consolidate their resources, share learnings and technology, and sell together, Sarah saw how these women were powering themselves and their communities.

"What stood out to me was not just their efficiency, but their collaboration. They were utilizing the tools iDE connected them with to empower their community" - Sarah Moran

For more on Sarah's experience with iDE, view the **December 2024 Team Talk segment**.

TTC Immersion Experience in Zambia

This fall TTC will again partner with iDE in Zambia. September 15-21, a group of TTC employees will participate in Journey to Impact: Immersion Experience making a meaninful contribution to sustainable solutions for smallholder farmer families through a focus on human-centered design.

APPLICATION DEADLINE: TOMORROW, March 22 | LEARN MORE & APPLY

Support from The Toro Company has helped iDE deepen and accelerate its work to power women to transform their communities. iDE achieves a Social Return on Investment 14:1, meaning that every \$1 donated becomes at least \$14 of increased income for a household breaking out of poverty. TTC matches all donations to iDE. Visit YourCause for n information.

Voted Product of the Year currently operates in more than 45 countries ar world with the same purpose: to guide consumers to the best new products available on the market and champion innovation.

Irritrol's LIFE controller has been named a 2024 Voted Product of the Year in Italy in the gardening/DIY category!

Voted Product of the Year is the largest consumer-voted award for product innovation. Established in France in 1987, Voted Product of the Year currently operates in more than 45 countries around the world with the same purpose: to guide consumers to the best new products available on the market and champion innovation.

In Italy, Voted Product of the Year is backed by the votes of over 12,000 consumers nominating the winning products in each category with its famous red seal of approval

Congratulations to the Italian team!

Throwback Thursday

As we continue to celebrate Women's History Month, a few more women firsts at TTC: **Nancy Storey**, the first woman to sell TTC's GameTime products at a U.S. distributor and **Rebecca Reade**, the first woman at TTC to hold a U.S. patent.

Vol. 5, No. 3 • OCTOBER, 1974

An Industry First

Nancy Storey

Nancy Storey has been a sales associate for a manufacturer of park, playground and sports equipment for only a few weeks but she's convinced she has found a rewarding career. With a territory that covers the western half of the state of Washington, she is experiencing a strong feeling of challenge and independence. And she has discovered that there is far less discrimination against women in sales than in other fields.

Ms. Storey is a sales associate with VANCO, a Renton, Washington-based representative for Game Time.

She is the first woman to serve in a sales capacity for Game Time equipment and is believed to be the first in the industry, according to John Van, president of VANCO.

A native of Lewiston, Idaho, she had been a newspaper reporter, migrant labor camp supervisor, assistant director of a community development council and a public relations and planning consultant before joining VANCO.

She worked as a reporter for the Lewiston Morning Tribune after attending the University of Idaho on a journalism scholarship. (Her mother was a newspaper reporter.) She supervised the migrant labor camp while on the staff of the housing authority in Yamhill, Oregon. As the assistant director of the La Grande, Oregon, Community Development Council, she was in charge of council activities in three counties.

VANCO is Game Time's sales representative in Washington, Oregon, Montana, Idaho and Alaska.

Ms. Storey moved recently to Renton from Seattle. The mother of three children said she definitely would encourage more women to look for career opportunities in sales.

A QUARTERLY PUBLICATION FOR TORO EMPLOYEES

Toro

SUMMER 1995 . VOLUME 1 . NUMBER 1

RIVERSIDE, CALIFORNIA

First Toro woman receives patent

Rebecca Reade, engineering designer, is one-of-a-kind. According to Toro's legal department, she's the first female Toro employee to hold a U.S. patent on an invention.

Reade worked with Jeff McKenzie and Mike Grundy, principle designers in engineering, on the multi-stream, adjustable sprinkler nozzle, the MultiMatrx V-1550. Reade and McKenzie devised an innovative adjusting locking pin that improves tamper resistance, a feature especially appealing to maintenance personnel who are the product's primary customers. Grundy simultaneously worked on a different aspect of the same sprinkler.

"It was a huge effort in teamwork — with everyone coming together. I wouldn't want any glory without them," Reade said.

According to Larry Buckley, senior patent attorney for Toro, there are 233 employees in the company who hold patents.

Hybrid Technology Taken to the Next Level

The industry's first and only fairway mower with a true hybrid drive system, the **Toro Reelmaster 5010-H**, has been given a comprehensive upgrade. Many updates were based on customer feedback.
