

FROM DAGGY TO DOGGY

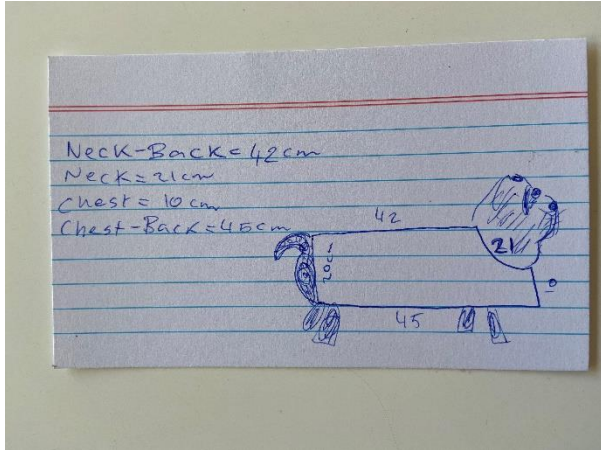

REPURPOSE

Take an old garment and turn it into something usable. Reduce, re-use, recycle!

Viviana Bartolome

Textiles

1. Measure the dog and plan your coat.

2. Take one pair of old, blue cotton trousers.

3. Unpick one of the inside legs.

4. Fold the leg on the outside seam so that it will run down the middle of the dog's back. The hem of the trouser will be the back of the dog coat. Draw the measurements of the dog coat on the trousers.

5. Cut out the coat and sew the chest together and then hem the neck.

Make sure the inside seams are smooth so they won't irritate the dog when he wears it.

Let your dog help if he wants to!

6. Take the front of the trousers with the button holes.

7. Cut the fabric so there are 2 button holes on each piece and hem the pieces.

8. Sew these two pieces together – they will go under the dog's tummy.

9. Cut the buttons off the pants.

10. Try the coat on the dog and put a mark on both sides of the coat where the strip of fabric will go under his tummy. Sew two buttons onto the dog coat on either side.

11. Attach the band to the buttons and it's all done!

12. Try the dog coat on and make sure it fits well.

It's a Success!
