Dear school community,

Subject: Changes to PTA and introducing Community Links

I wanted to share a quick update about changes to the PTA and what this means moving forward.

After consultation and discussion with the PTA, we have been looking at how to best support and grow community participation across the school. As part of that process, the PTA recently voted unanimously to dissolve its governance structure and transition into a School Council subcommittee, now known as Community Links.

Essentially, the work of the PTA is now folding into School Council through Community Links.

Not a lot will change in what you see and experience day to day. The same passion, effort and focus on building a strong, connected school community will continue. Events, activities and fundraising will continue, now supported within a slightly different structure.

I want to acknowledge and thank the PTA. Their contribution over many years has been significant and they played a big role in shaping the community we have today.

We welcome previous PTA members to continue their involvement through Community Links, along with others from across the school community.

If you have been involved in the past, or have been thinking about getting involved, this is a great time to join in. Whether it is helping at events, sharing ideas and feedback or being part of the subcommittee, every contribution helps.

Community Links will begin meeting in the coming weeks and we're keen to bring together anyone interested in being involved. Please reach out to [mepscommunitylinks@gmail.com](mailto:mepscommunitylinks@gmail.com)

Thanks again to everyone who supports the school in all the different ways they do.

Regards,

A handwritten signature in blue ink that reads 'A. Stephenson'.

Az Stephenson  
School Council President
