SCSA SPORTS PERFORMANCE COMPETITION

TERM 3, 2020 (FROM 27 JULY – 4 SEPTEMBER)

Join in the fun!!!

Due to Term 3 sports being cancelled, it is vital that all students stay healthy and active but also to remain engaged with each other as much as possible. As an alternative to our cancelled sports events for 2020, SCSA has created an opportunity for all students to submit a video with their choice of any SCSA sport performing a skill for that sport.

Rules:

Students from all SCSA schools are invited to join in this competition by submitting their video entries of their performance. There are no set rules or requirements – you just need to be creative and skilful as you can and use your downtime between classes and study sessions to have some fun. You can set up your phone or device and plan your performance, record it and submit it. Submissions must be made and the short video uploaded on the SCSA website.

There is no minimum or maximum number of students per video submission (can be one student, or a team of students). A student can also include a friend, sibling, or a relative/parent with them to assist in creating the performance, especially for the students at home doing remote learning in the current environment.

The sport chosen must be one of any of the SCSA sports: Triathlon, Swimming/Diving, Tennis, Indoor Cricket (or outdoor cricket), Futsal/Soccer, Badminton, Athletics, Basketball, Cross Country, Hockey, AFL footy, Volleyball, Aerobics, Netball, Lacrosse, Table Tennis and Softball.

There are no limits on the number of videos submitted and the number of different sports chosen. Each video will be judged by the 5 categories below:

Best creativity

Best skilled

Best team collaboration

Best choreography

Best entertaining

Each video must be edited by you so that the footage provided is just the performance itself and must not exceed more than one minute.

Every student from all year levels are encouraged to participate, especially the senior students who are currently in school as they have access to sporting equipment and the ground facilities.

Be creative and have fun! Examples would be dribbling a soccer ball around a few of your teammates and kicking a great goal to finish, or taking a 'screamer' with the footy and kicking a goal, or diving in and swimming a really fast time in your house swimming pool (if you're game enough in this cold weather!!).

A tick box will appear on the submission page to authorise SCSA to publish the video online on its website and Facebook page. In the second last week of Term 3, five of the most outstanding videos will be selected by the SCSA committee as the overall winners and a shield/trophy will be awarded to each winning student, or duo/team.

To enter this competition, you must register through:

<https://www.scsa.org.au/events/70674/>

(Please take note of the following when registering):

*Log in only as a **guest**, not a member. When filling in the 'Basic Details', prefill 'phone number' with 0, and address as 'c/o school name, eg OLSH, Avila, etc'. Please tick the first box if you give permission for SCSA to publicly publish your video on the SCSA website and Facebook page. You need to tick the second box for the submission to go through. Good luck with showing us your sporting performance and being creative!!!*

*With the video format, the student must set up a free YouTube account or Vimeo and upload the video through YouTube and then just enter the link or embed the video. Within YouTube, there is a feature to list videos **as unlisted** which means that they won't appear in any searches and won't be able to be viewed by any of the public unless they have the direct video link.*

This process does not allow anybody to view the video apart from the students themselves and the administrator of the SCSA website.
